

MEETINGBOARD

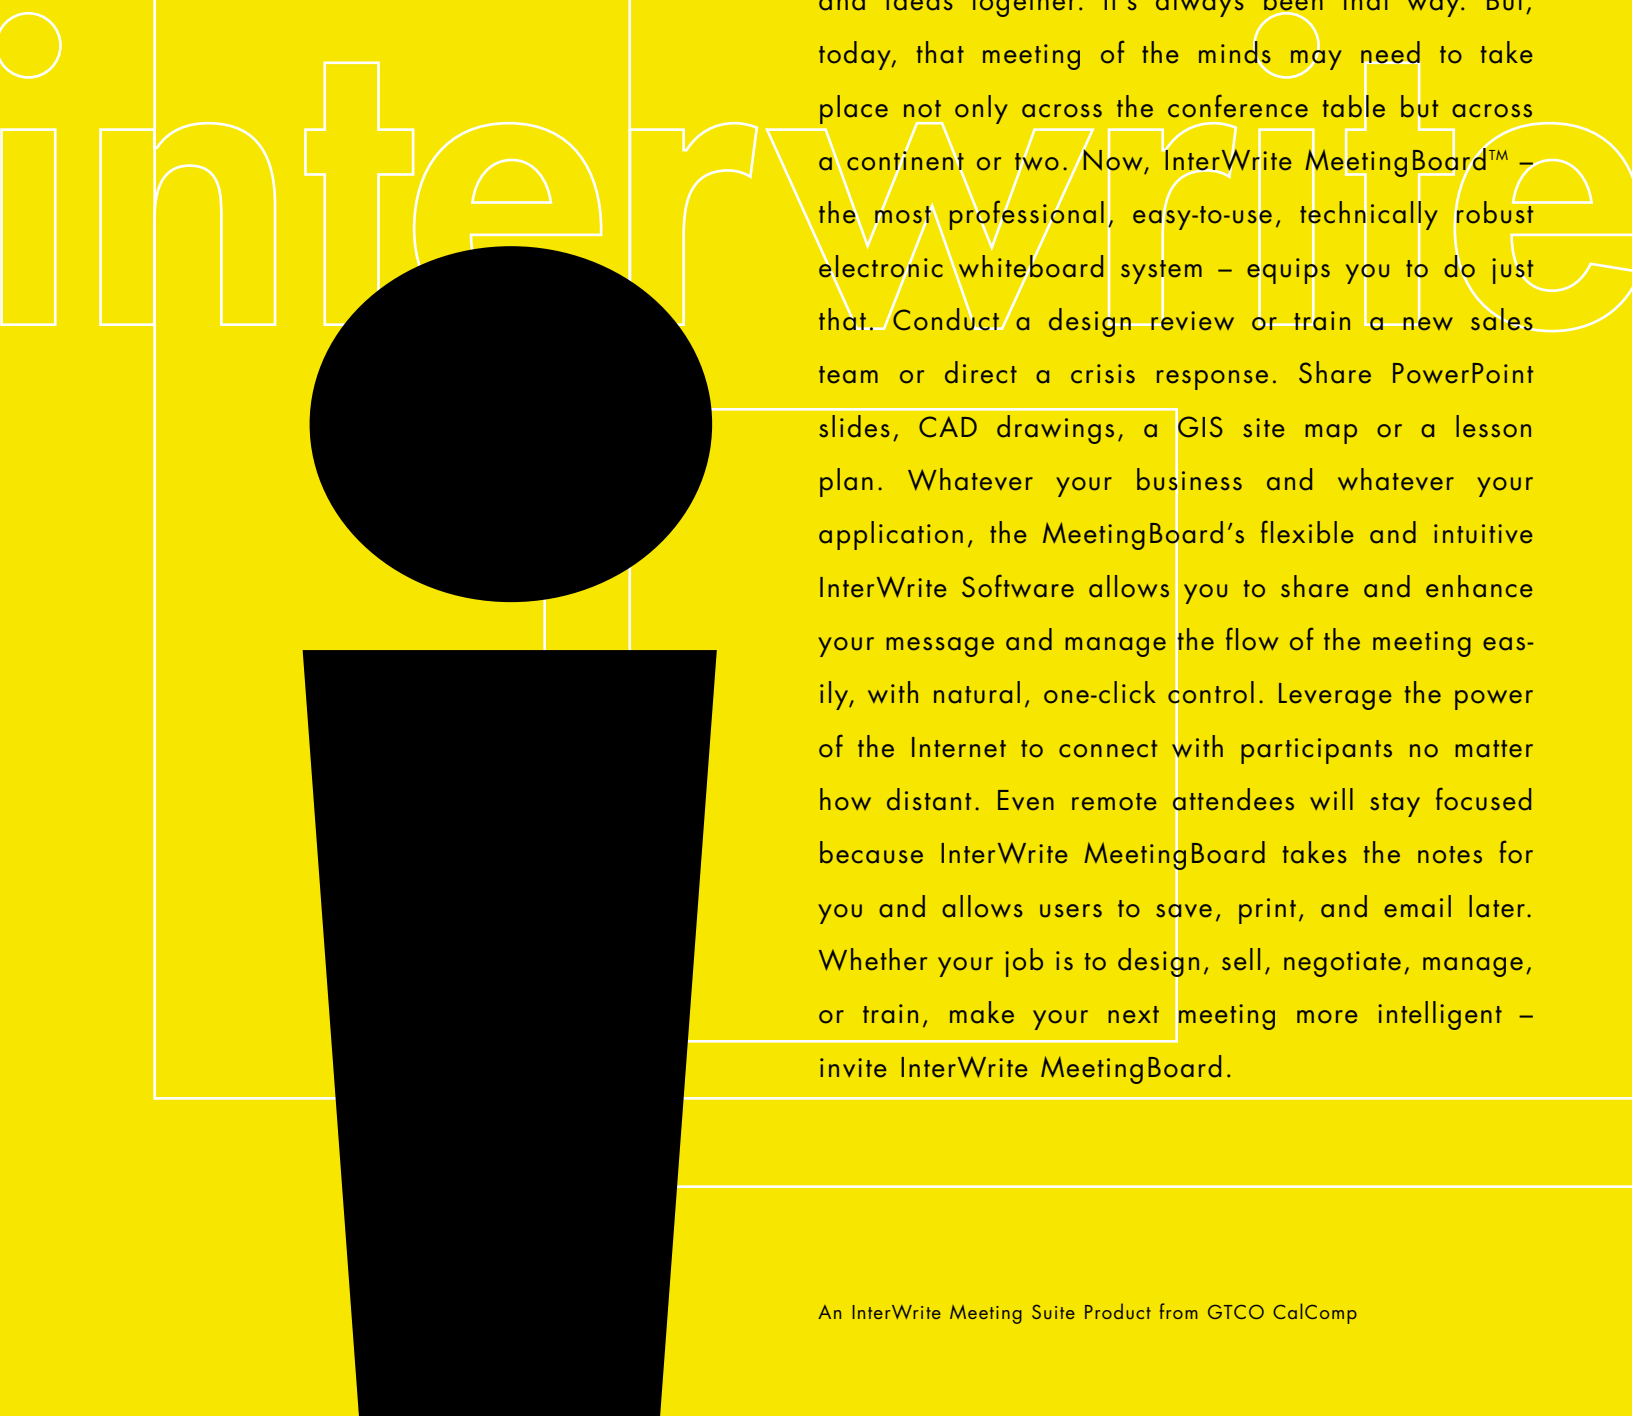

interwrite™

THE MARK OF
AN INTELLIGENT
MEETING

"Let's check the site map for crisis team assignments."

"Let me diagram how it works."

"Let's get the whole project team on the same page."

It's simple. To meet effectively, you must bring people and ideas together. It's always been that way. But, today, that meeting of the minds may need to take place not only across the conference table but across a continent or two. Now, InterWrite MeetingBoard™ – the most professional, easy-to-use, technically robust electronic whiteboard system – equips you to do just that. Conduct a design review or train a new sales team or direct a crisis response. Share PowerPoint slides, CAD drawings, a GIS site map or a lesson plan. Whatever your business and whatever your application, the MeetingBoard's flexible and intuitive InterWrite Software allows you to share and enhance your message and manage the flow of the meeting easily, with natural, one-click control. Leverage the power of the Internet to connect with participants no matter how distant. Even remote attendees will stay focused because InterWrite MeetingBoard takes the notes for you and allows users to save, print, and email later. Whether your job is to design, sell, negotiate, manage, or train, make your next meeting more intelligent – invite InterWrite MeetingBoard.

THE MARK OF AN INTELLIGENT MEETING

INTERWRITE

meeting

Finally, The Intelligent MeetingBoard

The InterWrite MeetingBoard is the most sleek and sophisticated whiteboard system on the market. Its patented technology delivers the most robust and technically advanced system today. With this board behind you, you command attention from across the room and across the country.

MeetingBoard has the power to bring your team together quickly and put them on the same page. Presenters, instructors, and trainers get the point across. The ultimate benefits to your company are accelerated time-to-market, improved schedules, reduced costs, more effective project management, and fewer travel expenses.

But, the MeetingBoard's most important feature is simplicity. Color your comments with highlighting and underscore your annotations with the bold stroke of an electronic pen. This is the dynamic centerpiece for meetings of all kinds that anyone – from a child to a CEO – can use with intuitive, one-touch activation. After all, to be really smart, it has to be simple.

Slick and sophisticated, the MeetingBoard adds power and clarity to any presentation. Command attention and keep the focus on your message.

CAD or GIS professional, educator or presenter – whether you design, sell, negotiate, manage, or train – make your next meeting InterWrite intelligent.

Are You in This Meeting?

InterWrite MeetingBoard easily interfaces with any application. It enables collaboration that extends the reach of your meeting to anyone you invite. For everything from engineering design reviews to professional training sessions, InterWrite is right.

- Architects, engineers, project managers, and other CAD professionals
- Emergency and disaster relief personnel
- City planners, developers, and other GIS users
- Professional trainers
- Educators
- Financial planners
- Marketing and sales presenters
- Consultants
- Lawyers
- Military personnel

board

A More Polished, Professional Meeting

InterWrite MeetingBoard with InterWrite Software™ puts all the tools you need to conduct a productive, beneficial meeting right at your fingertips. Press a single button, pick up one of the electronic pens and tap into these features:

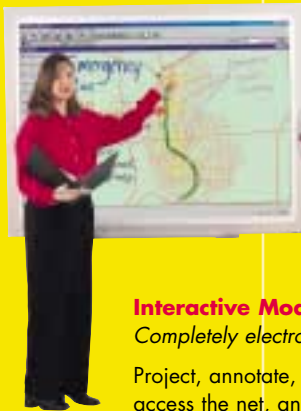

- Four color pens and highlighters to annotate in variable thickness
- True mouse-mode operation (including the right-click and double-click) of any Windows application
- Blank screen brainstorming
- Cut, copy, move and paste
- Instant Internet access
- Change slide sequence
- Forward and backward toggle through screens to review previously saved information
- View all slides, zoom, re-sequence and print
- Create self-executing files to email participants with a single click!
- Capture fine details and precisely select and draw on intricate designs thanks to MeetingBoard's high resolution

Quick, fingertip access to mouse commands and InterWrite features. And, erase with the flick of a wrist!

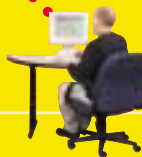

A Complete System with Three Powerful Modes

Interactive Mode *Completely electronic!*

Project, annotate, operate applications, edit, access the net, and save it all! Then email it or print it, instantly.

PC WhiteBoard Mode

Dry Erase and the board saves notes to the PC!

Brainstorm, write, diagram, save, print, and email.

CopyBoard Mode

For "no frills" meetings and capturing brilliant ideas! No PC required.

Write, draw, brainstorm, then print directly from the board.

InterWrite Meeting Suite from GTCO CalComp

The InterWrite MeetingBoard is the centerpiece of the InterWrite Meeting Suite™ of intelligent, intuitive collaboration tools for professionals everywhere. These products have been designed by GTCO CalComp to apply the power of technology to the art of the meeting. Ask us about InterWrite MeetingPad™ and InterWrite Meeting Service™.

By definition a meeting is a dialogue. InterWrite MeetingBoard lets you invite others to edit the document or amend drawings from their personal InterWrite MeetingPad or PC.

A MeetingBoard to Meet Any Need

The MeetingBoard

One system for any meeting style. This superior board offers a 'no compromise' approach to meetings, providing Interactive, PC WhiteBoard and CopyBoard Mode operation. The unique surface on the MeetingBoard is optimized for projection and dry erase use. This means no glare or hot spots in Interactive Mode, even from the brightest projectors. For dry erase use, the surface captures the ink with no smudges. The MeetingBoard comes with 4 electronic pens and a large eraser.

MeetingBoard LX

For Interactive Mode meetings. Some users know that they will only use the system in Interactive Mode. The MeetingBoard LX was designed for them. The board is a high quality projection surface with no glare or hot spots. While not recommended, dry erase ink will not damage the MeetingBoard LX surface. The MeetingBoard LX comes with one electronic pen.
