**Do More. Communicate More. Know More.
InterWrite Software Makes It All Possible.**

InterWrite Software is the annotation software that brings the InterWrite Meeting Suite together. Featuring an intuitive tool-set, anyone in your organization can pick up a pen and begin interacting by annotating, highlighting, erasing and saving notes. Users can take advantage of the advanced functions to insert pictures, use hand-writing recognition to convert notes to text, draw shapes and lines and much, much more. InterWrite Software has the tools to make all your meetings more effective and to keep your entire organization on the same page.

PERIPHERALS

The wireless InterWrite MeetingPad allows everyone to contribute to the presentation from anywhere in the room. With the same abilities to interact and annotate as the MeetingBoard, the MeetingPad can be passed around the room to engage the audience in the presentation. Using Bluetooth technology, up to seven MeetingPads can interact with the same computer, giving everyone in the room a chance to participate.

meetingboard + meetingpad = meeting suite

The InterWrite MeetingBoard is a durable and easy-to-use electronic whiteboard that lets you command attention and keep your audience focused on your message. InterWrite Software allows you to use the MeetingBoard to annotate your presentation, highlight key ideas, and save your notes so everyone leaves the meeting on the same page.

With only a computer and a projector, the complete InterWrite Meeting Suite lets you turn your conference room into a dynamic environment. The InterWrite Meeting Suite is a powerful set of tools that enables you to engage your audience, encourage active participation, enhance collaboration, capture great ideas and keep everyone on the same page.
