THE MARK OF AN INTELLIGENT MEETING

interwrite™
MEETING SUITE

InterWrite Software™

The most intuitive, easy to use, feature-rich meeting software available today

InterWrite MeetingBoard™

The centerpiece of the InterWrite Meeting Suite - a sleek, conference-room-sized electronic whiteboard with sophisticated electronic pens. With InterWrite Meeting Services™, enjoy the simplest way to connect meeting participants and offer them control.

InterWrite Meeting Suite™

It is no secret. Faster and more effective communication is critical in business today. Just as important are the tools we use to bring people and their ideas together, whether they are across the room or across the world. The InterWrite Meeting Suite of products and services were designed to make that "meeting of the minds" possible - in fact, simple. This professional, intelligent, easy-to-use collaboration system was developed by GTCO CalComp and is based on years of experience in patented peripheral input technologies. Whatever your business and whatever your application, Meeting

Suite's integrated products provide flexibility and simplicity. Share information and applications, manage the flow of any meeting or training session, enhance your message with color and highlighting, keep a digital record of the meeting and email it to participants. The system saves the notes so no one has to be distracted by note-taking. And, with the Web features of InterWrite Meeting Service, you keep even remote attendees focused and involved. Whether your job is to design, sell, negotiate, manage, or train, your next meeting will be more intelligent with InterWrite Meeting Suite.

InterWrite MeetingPad™

Versatile and portable, the cordless InterWrite MeetingPad lets you participate from across the room or across the world.
